REPORT OF THE SCHOOL BOARD.

According to the enumeration of the truant officer, the number of children in town Sept. 1st, 1905, between the ages of six and sixteen years, was 118; 62 being boys and 56 girls.

The summer schools were uniform, but in the fall changes began to occur, caused by the moving of steam mills. These changes culminated, at the time of opening the winter schools, in organizing a school at Roby's Corner, and the Highland school was closed. The old schoolhouse at Roby's Corner was engaged at a fair rent and refitted for a schoolroom at little comparative expense. The old seats had been carefully packed away and were again put into the schoolroom.

Very little was expended in repairs in any of the schoolhouses, the most being at the Old South where the ceiling of the schoolroom was replastered.

Most of the schools had thirty weeks of school. The North grammar school only had twenty-eight weeks as the teacher was sick and unable to finish the winter term. At Roby's Corner, also, the teacher was sick and unable to quite finish their one term.

The Primary and First and Second Readers were so utterly worn out it became necessary to buy a few readers, which were introduced in part of the schools, and the best of the old ones transferred to the other schools for a temporary arrangement. In some other studies the supply of books was less than the demand, but the purchase of more books was postponed on account of the danger of overdrawing from the school fund.

For the same reason the law in regard to purchasing flags for the schools has been somewhat evaded. While it can be said the schools have flags, still in some schools they have become utterly unfit to float over the schoolhouse.

At least one of the schoolhouses not in present use will very soon need looking after, to keep it from decaying. The co-operation of the parents is desired to influence the children to im-

prove the opportunities intended in our school system for teaching good citizenship.

Fire Insurance and Pianos

NEW LONDON, = N. H.

Do You Know What Companies You Are Insured In?

IN case of fire your policies are equivalent to a check on a bank. Better look your policies over and satisfy yourself that you have the strongest companies obtainable.

Your property represents money, and your mercantile credit is based on what you own. In ten minutes fire will wipe out the savings of years.

Then look to your fire insurance policies.

*Had you not better make sure NOW that
